

MAGENTO SOFTWARE LIFECYCLE POLICY

The Magento Software Lifecycle Policy governs Software subscribed to as part of Customer's subscription agreement or Customer's software license agreement with Magento (the "Agreement"). For clarity, the Magento Software Lifecycle Policy does not apply to the Magento Open Source project.

For purposes of Magento's support obligations, Magento defines its software version scheme as Major.Minor.Patch releases (e.g. 2.1.7 is Magento Major Version 2, Minor Release 1, Patch Release 7). Capitalized terms used herein, but not defined, shall have the meanings set forth in Customer's Support Terms or Customer's Agreement.

Magento will provide support to applicable Major and Minor releases of the Software based on the following lifecycle schedule:

<i>Release</i>	<i>Release Date</i>	<i>End of Support Date</i>
Enterprise Edition 1.9	July 2010	July 2012 ²
Enterprise Edition 1.10	February 2011	February 2013 ²
Enterprise Edition 1.11	August 2011	August 2013 ²
Enterprise Edition 1.12	April 2012	April 2014 ²
Enterprise Edition 1.13	October 2013	June 2020 ¹
Enterprise Edition 1.14	June 2014	June 2020 ¹
Enterprise Edition 2.0	November 2015	March 2018
Enterprise Edition 2.1	June 2016	June 2019
Magento Commerce 2.2	September 2017	September 2019

¹ Requires a renewal of the applicable Magento subscription or license through the stated date

² Security patches will continue to be provided and made available by Magento through June 2020
